TAKE ORDERS, TAKE PAYMENT AND RUN YOUR RESTAURANT...IN STYLE!

Tomorrow's ordering technology...today.

# Restaurant Pro *express*® *mobile*
Point of Sale Solution for Restaurants

The appeal of mobile POS is undeniable. Less wait time, higher table turnover, increased order accuracy and credit card payments where the card never leaves the table make for a more pleasurable dining experience. Restaurant Pro Express™ Mobile offers restaurant owners the functionality of a traditional point of sale terminal on handheld Apple® iTouch® or iPhone® devices. Servers can take orders tableside on mobile terminals with added ability to securely process credit card payments through an attached, encrypted credit card reader. The mobile POS shares menus and transactions in real-time with the stationary Restaurant Pro Express™ POS terminals within the restaurant, allowing for a seamless experience throughout the restaurant.
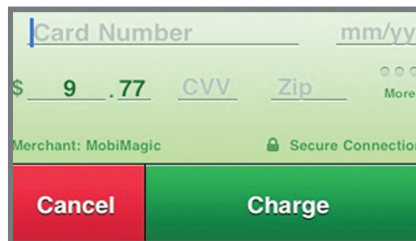

Features

- Easy, modern interface
- Take orders at the table
- Credit card payments with signature capture
- Split checks
- E-mail receipts to customers
- Orders print or display in the kitchen
- Shares menu with primary point of sale system

With the easy mobile interface, wait staff can quickly and easily enter orders from the table.

Process credit cards, apply tips and record electronic signatures through the mobile POS. The credit card never leaves the table.

Selecting and modifying items is simple. Checks can be split easily at the table.
